

# Are you: an autistic post-primary student, or their parent/guardian?

## I am looking for research participants, can you help?

My name is Aisling Becton and I am a Doctoral student at DCU

### Research topic:

I am working on a research project looking at why some autistic **post-primary students** find it difficult to attend class or school at times.

### Do you (16+) / does your child (under 16): find it difficult or stressful to attend class or school sometimes?

*(You / They may not be in school, because it is stressful or difficult to go to school at the moment.*

*You / They may have / had an extended period of not attending school.*

*You / They may be receiving Home Tuition hours.*

*You / They may be home educated.*

*You / They may be attending an alternative type of educational setting.)*

### What is required?

I am looking for students who are willing to take part in an interview as part of this research.

This interview will take place remotely- by phone, text message or video call.

An adult must be present with all interviewees during interviews.

To express an interest in taking part, or for more information,
